SUMMARY

Backend engineer with six years building payment APIs, from first prototype through to services handling millions of requests a day.

SKILLS

TypeScript, Node.js, PostgreSQL, Redis, Docker, Kubernetes, AWS, GraphQL

EXPERIENCE

Senior Software Engineer, Northwind Payments **2021 – Present**

- Led a team of 4 engineers building the invoicing API used by 1,200 merchants, including the migration of the billing ledger from a monolith to services
- Reduced p95 checkout latency by 38% by adding a Redis cache in front of PostgreSQL
- Wrote integration tests and ran code reviews for the payments squad

Software Engineer, Contoso Labs **2018 – 2021**

- Built internal admin tools in React and Node.js
- Migrated cron jobs to a queue-based worker system

EDUCATION

B.Sc. Computer Science, University of Waterloo, 2018
